Category Note: IEH (Industrial & Environmental Hygiene) - These projects are environmental abatement projects performed on an as-needed basis. The work items are typically in response to requests by custodians. For IEH schedule data, the actual construction start date and completion dates are provided. Like Emergency projects, these projects are responses to identified environmental conditions and do not have formal scope and design phases. The only phase reported is Construction. For IEH financial data, CP and final estimate data are provided. Project budget data is "IEH" as these projects, like Emergency projects, are responses to environmental conditions and are funded as needed.

Category Note: IEH (Industrial & Environmental Hygiene) - These projects are environmental abatement projects performed on an as-needed basis. The work items are typically in response to requests by custodians. For IEH schedule data, the actual construction start date and completion dates are provided. Like Emergency projects, these projects are responses to identified environmental conditions and do not have formal scope and design phases. The only phase reported is Construction. For IEH financial data, CP and final estimate data are provided. Project budget data is "IEH" as these projects, like Emergency projects, are responses to environmental conditions and are funded as needed.

Project #: DSF0000960055

Category Note: DIIT (DOE Division of Instructional and Information Technology) - Project Connect involves purchase and installation of technology on projects such as infrastructure cabling, equipment and integration, wireless classroom integration/installation, retrofit and data and voice cabling, and internet video instruction servers (IVIS). Only the Purchase and Install phase appears in the Report since technology projects do not involve scope, design and construction. For schedule information, actual start and end dates are provided. For financial data, the funding is on a lump sum basis and the costs per school are dependent on survey results. Each CP reflects funding for an entire multi-school program. This program has additional State, Federal and private funding sources which are not included in this column. Final estimates and actual spending are provided when available. Financial data is "DIIT", if data is not provided.

Category Note: DIIT (DOE Division of Instructional and Information Technology) - Project Connect involves purchase and installation of technology on projects such as infrastructure cabling, equipment and integration, wireless classroom integration/installation, retrofit and data and voice cabling, and internet video instruction servers (IVIS). Only the Purchase and Install phase appears in the Report since technology projects do not involve scope, design and construction. For schedule information, actual start and end dates are provided. For financial data, the funding is on a lump sum basis and the costs per school are dependent on survey results. Each CP reflects funding for an entire multi-school program. This program has additional State, Federal and private funding sources which are not included in this column. Final estimates and actual spending are provided when available. Financial data is "DIIT", if data is not provided.

Project #: SCA0000067194

Category Note: IEH (Industrial & Environmental Hygiene) - These projects are environmental abatement projects performed on an as-needed basis. The work items are typically in response to requests by custodians. For IEH schedule data, the actual construction start date and completion dates are provided. Like Emergency projects, these projects are responses to identified environmental conditions and do not have formal scope and design phases. The only phase reported is Construction. For IEH financial data, CP and final estimate data are provided. Project budget data is "IEH" as these projects, like Emergency projects, are responses to environmental conditions and are funded as needed.

Project #: SCA0000062507

Category Note: IEH (Industrial & Environmental Hygiene) - These projects are environmental abatement projects performed on an as-needed basis. The work items are typically in response to requests by custodians. For IEH schedule data, the actual construction start date and completion dates are provided. Like Emergency projects, these projects are responses to identified environmental conditions and do not have formal scope and design phases. The only phase reported is Construction. For IEH financial data, CP and final estimate data are provided. Project budget data is "IEH" as these projects, like Emergency projects, are responses to environmental conditions and are funded as needed.

Project #: DSF0000960019

Category Note: DIIT (DOE Division of Instructional and Information Technology) - Project Connect involves purchase and installation of technology on projects such as infrastructure cabling, equipment and integration, wireless classroom integration/installation, retrofit and data and voice cabling, and internet video instruction servers (IVIS). Only the Purchase and Install phase appears in the Report since technology projects do not involve scope, design and construction. For schedule information, actual start and end dates are provided. For financial data, the funding is on a lump sum basis and the costs per school are dependent on survey results. Each CP reflects funding for an entire multi-school program. This program has additional State, Federal and private funding sources which are not included in this column. Final estimates and actual spending are provided when available. Financial data is "DIIT", if data is not provided.

Project #: SCA0000067208

Category Note: IEH (Industrial & Environmental Hygiene) - These projects are environmental abatement projects performed on an as-needed basis. The work items are typically in response to requests by custodians. For IEH schedule data, the actual construction start date and completion dates are provided. Like Emergency projects, these projects are responses to identified environmental conditions and do not have formal scope and design phases. The only phase reported is Construction. For IEH financial data, CP and final estimate data are provided. Project budget data is "IEH" as these projects, like Emergency projects, are responses to environmental conditions and are funded as needed.

Project #: DSF0000890828

Category Note: Fast Track (Various Expedited Projects) - These projects are expedited when identified. In some cases there may not be a formal scope or design phase. Accordingly, the only phase reported is Construction. The actual construction start and end dates are provided. The planned construction completion date is "FTK" since these projects are expedited and do not have standard scheduled durations. Financial information includes the CP, final estimate, and actual spending. The final estimate does not include projections to complete the project. Project budget is "FTK" since the projects are expedited and are not budgeted.

Project #: SCA0000068656											
Category Note: IEH (Industrial & Environmental Hygiene) - These projects are environmental abatement projects performed on an as-needed basis. The work items are typically in response to requests by custodians. For IEH schedule data, the actual construction start date and completion dates are provided. Like Emergency projects, these projects are responses to identified environmental conditions and do not have formal scope and design phases. The only phase reported is Construction. For IEH financial data, CP and final estimate data are provided. Project budget data is "IEH" as these projects, like Emergency projects, are responses to environmental conditions and are funded as needed.

Category Note: Fast Track (Various Expedited Projects) - These projects are expedited when identified. In some cases there may not be a formal scope or design phase. Accordingly, the only phase reported is Construction. The actual construction start and end dates are provided. The planned construction completion date is "FTK" since these projects are expedited and do not have standard scheduled durations. Financial information includes the CP, final estimate, and actual spending. The final estimate does not include projections to complete the project. Project budget is "FTK" since the projects are expedited and are not budgeted.

Project #: DSF0000960435

Category Note: DIIT (DOE Division of Instructional and Information Technology) - Project Connect involves purchase and installation of technology on projects such as infrastructure cabling, equipment and integration, wireless classroom integration/installation, retrofit and data and voice cabling, and internet video instruction servers (IVIS). Only the Purchase and Install phase appears in the Report since technology projects do not involve scope, design and construction. For schedule information, actual start and end dates are provided. For financial data, the funding is on a lump sum basis and the costs per school are dependent on survey results. Each CP reflects funding for an entire multi-school program. This program has additional State, Federal and private funding sources which are not included in this column. Final estimates and actual spending are provided when available. Project #: SCA0000046249

Category Note: Fast Track (Various Expedited Projects) - These projects are expedited when identified. In some cases there may not be a formal scope or design phase. Accordingly, the only phase reported is Construction. The actual construction start and end dates are provided. The planned construction completion date is "FTK" since these projects are expedited and do not have standard scheduled durations. Financial information includes the CP, final estimate, and actual spending. The final estimate does not include projections to complete the project. Project budget is "FTK" since the projects are expedited and are not budgeted.

Project #: DSF0000960609

Category Note: DIIT (DOE Division of Instructional and Information Technology) - Project Connect involves purchase and installation of technology on projects such as infrastructure cabling, equipment and integration, wireless classroom integration/installation, retrofit and data and voice cabling, and internet video instruction servers (IVIS). Only the Purchase and Install phase appears in the Report since technology projects do not involve scope, design and construction. For schedule information, actual start and end dates are provided. For financial data, the funding is on a lump sum basis and the costs per school are dependent on survey results. Each CP reflects funding for an entire multi-school program. This program has additional State, Federal and private funding sources which are not included in this column. Final estimates and actual spending are provided when available. Financial data is "DIIT", if data is not provided.

Project #: DSF0000960291

Category Note: DIIT (DOE Division of Instructional and Information Technology) - Project Connect involves purchase and installation of technology on projects such as infrastructure cabling, equipment and integration, wireless classroom integration/installation, retrofit and data and voice cabling, and internet video instruction servers (IVIS). Only the Purchase and Install phase appears in the Report since technology projects do not involve scope, design and construction. For schedule information, actual start and end dates are provided. For financial data, the funding is on a lump sum basis and the costs per school are dependent on survey results. Each CP reflects funding for an entire multi-school program. This program has additional State, Federal and private funding sources which are not included in this column. Final estimates and actual spending are provided when available. Financial data is "DIIT", if data is not provided.

Category Note: DIIT (DOE Division of Instructional and Information Technology) - Project Connect involves purchase and installation of technology on projects such as infrastructure cabling, equipment and integration, wireless classroom integration/installation, retrofit and data and voice cabling, and internet video instruction servers (IVIS). Only the Purchase and Install phase appears in the Report since technology projects do not involve scope, design and construction. For schedule information, actual start and end dates are provided. For financial data, the funding is on a lump sum basis and the costs per school are dependent on survey results. Each CP reflects funding for an entire multi-school program. This program has additional State, Federal and private funding sources which are not included in this column. Final estimates and actual spending are provided when available. Financial data is "DIIT", if data is not provided.

Category Note: EMER (Emergency Response) - These projects are performed as emergencies are identified. Generally the emergency must be remediated immediately and there is no formal scope or design phase. Accordingly, the only phase reported is Construction. The actual construction start a end dates are provided. The planned construction completion date is "EMER" since these projects are emergencies and do not have standard scheduled durations. Emergency Response financial information includes the CP, final estimate, and actual spending. The final estimate is "EMER" until an initial estimate is obtained. The final estimate does not include projections to complete the project. Project budget is "EMER" since the projects are emergencies and are not budgeted.

Category Note: DIIT (DOE Division of Instructional and Information Technology) - Project Connect involves purchase and installation of technology on projects such as infrastructure cabling, equipment and integration, wireless classroom integration/installation, retrofit and data and voice cabling, and internet video instruction servers (IVIS). Only the Purchase and Install phase appears in the Report since technology projects do not involve scope, design and construction. For schedule information, actual start and end dates are provided. For financial data, the funding is on a lump sum basis and the costs per school are dependent on survey results. Each CP reflects funding for an entire multi-school program. This program has additional State, Federal and private funding sources which are not included in this column. Final estimates and actual spending are provided when available. Financial data is "DIIT", if data is not provided.

Project #: DSF0000960281

Category Note: DIIT (DOE Division of Instructional and Information Technology) - Project Connect involves purchase and installation of technology on projects such as infrastructure cabling, equipment and integration, wireless classroom integration/installation, retrofit and data and voice cabling, and internet video instruction servers (IVIS). Only the Purchase and Install phase appears in the Report since technology projects do not involve scope, design and construction. For schedule information, actual start and end dates are provided. For financial data, the funding is on a lump sum basis and the costs per school are dependent on survey results. Each CP reflects funding for an entire multi-school program. This program has additional State, Federal and private funding sources which are not included in this column. Final estimates and actual spending are provided when available. Financial data is "DIIT", if data is not provided.

Project #: SCA0000067828

Category Note: IEH (Industrial & Environmental Hygiene) - These projects are environmental abatement projects performed on an as-needed basis. The work items are typically in response to requests by custodians. For IEH schedule data, the actual construction start date and completion dates are provided. Like Emergency projects, these projects are responses to identified environmental conditions and do not have formal scope and design phases. The only phase reported is Construction. For IEH financial data, CP and final estimate data are provided. Project budget data is "IEH" as these projects, like Emergency projects, are responses to environmental conditions and are funded as needed.

Project #: DSF0000960312

Category Note: DIIT (DOE Division of Instructional and Information Technology) - Project Connect involves purchase and installation of technology on projects such as infrastructure cabling, equipment and integration, wireless classroom integration/installation, retrofit and data and voice cabling, and internet video instruction servers (IVIS). Only the Purchase and Install phase appears in the Report since technology projects do not involve scope, design and construction. For schedule information, actual start and end dates are provided. For financial data, the funding is on a lump sum basis and the costs per school are dependent on survey results. Each CP reflects funding for an entire multi-school program. This program has additional State, Federal and private funding sources which are not included in this column. Final estimates and actual spending are provided when available. Financial data is "DIIT", if data is not provided.

Project #: DSF0000960371

Category Note: DIIT (DOE Division of Instructional and Information Technology) - Project Connect involves purchase and installation of technology on projects such as infrastructure cabling, equipment and integration, wireless classroom integration/installation, retrofit and data and voice cabling, and internet video instruction servers (IVIS). Only the Purchase and Install phase appears in the Report since technology projects do not involve scope, design and construction. For schedule information, actual start and end dates are provided. For financial data, the funding is on a lump sum basis and the costs per school are dependent on survey results. Each CP reflects funding for an entire multi-school program. This program has additional State, Federal and private funding sources which are not included in this column. Final estimates and actual spending are provided when available. Financial data is "DIIT", if data is not provided.

Project #: SCA0000066887

Category Note: IEH (Industrial & Environmental Hygiene) - These projects are environmental abatement projects performed on an as-needed basis. The work items are typically in response to requests by custodians. For IEH schedule data, the actual construction start date and completion dates are provided. Like Emergency projects, these projects are responses to identified environmental conditions and do not have formal scope and design phases. The only phase reported is Construction. For IEH financial data, CP and final estimate data are provided. Project budget data is "IEH" as these projects, like Emergency projects, are responses to environmental conditions and are funded as needed.
