CHANCELLOR

ELIZABETH ROSE  
DEPUTY CHANCELLOR  
DIVISION OF OPERATIONS

LORRAINE GRILLO  
PRESIDENT & CEO  
NEW YORK CITY SCHOOL CONSTRUCTION AUTHORITY

# INTRODUCTION

The Enrollment, Capacity, and Utilization Report (Report) is published annually by the Department of Education. The Report identifies the capacity of each Department of Education building based on a set of uniformly applied assumptions. The capacity is then compared to the building enrollment, and together, the capacity and enrollment figures provide a standard framework to assess the utilization of our facilities. The information provided in this Report helps us plan major capital projects that expand the capacity of our buildings and assists us in making informed decisions about the placement of new schools or programs in under-utilized buildings.

The calculation to determine a building's capacity is based on information provided by principals in the Principal Annual Space Survey (PASS). The PASS is conducted by the School Construction Authority (SCA) and requires principals to verify the usage of rooms within each building. For this information, we are grateful to over 1,700 principals who participate in the survey every year. The SCA visits a percentage of buildings each year to verify survey data.

Once the surveys are completed and we have information on the function of every room, we calculate a school's capacity. School capacity information is used to derive a building's capacity numbers, which is the total number of students the building could accommodate. Instructional rooms equal to or greater than 240 square feet are assigned a capacity, and capacity is adjusted based on the programmatic use of the rooms. For example, at the elementary school level, dedicated cluster rooms are programmed differently than homerooms. At the secondary school level, we know that science labs are programmed differently than typical classrooms. Our programmatic assumptions are discussed in more detail in the pages that follow. Once a building's adjusted capacity is determined, we calculate utilization by dividing the building's audited enrollment by the adjusted capacity. Our formulas for determining utilization and capacity are explained in greater detail on the pages that follow.

It is important to note that the Target Capacity and Utilization figures reflect aspirational goals for school buildings. Since the FY 2005-2009 Capital Plan, we have planned and built seats to reflect our goal of a maximum capacity of twenty students in kindergarten through third grade classrooms. Since the FY 2010-2014 Capital Plan, we have planned and built seats to reflect our goal of a maximum capacity of thirty students in all high school grade classrooms. Comparison of target capacities over time may not be valid as our goals and calculation methodology develop.

## **RECAP OF RECENT CHANGES (SCHOOL YEAR 2013-14 THROUGH 2016-17)**

The recent changes adopted in the Enrollment, Capacity and Utilization Report reflect the hard work of the Blue Book Working Group (BBWG). The BBWG is comprised of community stakeholders, including families from district schools, principals from both district and charter schools, advocacy organizations, Community Education Councils, the United Federation of Teachers, and elected officials. Regular meetings have allowed for in-depth discussion and review of each formula, assumption, and factor, as well as site visits to school buildings that represent all grade levels. In this collaborative structure, the BBWG proposes changes, many of which have been

adopted in the 2013-2014 and 2014-2015 Enrollment, Capacity and Utilization Reports. The BBWG continues to meet and refine the recommendations.

The 2013-2014 Enrollment, Capacity and Utilization Report adopted the BBWG's first recommendation to no longer report capacity for all Transportable Classroom Units (TCUs) and to include TCU enrollment in calculation of the main building utilization figure.

The 2014-2015 Enrollment, Capacity and Utilization Report incorporated recommendations from a year and a half of work by the BBWG members. The changes implemented in the 2014-2015 Enrollment, Capacity and Utilization Report include:

1. Cluster room adjustment
2. Guidance room adjustment
3. Teacher room adjustment
4. Organization of the Report

### **Cluster Room Adjustment**

Before the publication of the 2014-2015 Enrollment, Capacity and Utilization Report, Primary and Primary/Middle schools with 250 or fewer students were allocated one full-size room for instruction on special subjects, such as art and music. Now, the allocation is increased to two full-size rooms. Cluster rooms remain as deductions in the formula.

### **Guidance Room Adjustment**

One full-size room is allocated to allow school space for private counseling service in Primary, Primary/Middle and Middle schools. The Guidance room is a deduction in the formula.

### **Teacher Room Adjustment**

Previous reports allocated a half-size room as a teacher workroom for Primary, Primary/Middle and Middle schools. Since teachers in most of our Primary/Middle and Middle schools do not have a home classroom, the formula now increases the allocation for a teacher workroom to one full-size room at the Primary/Middle and Middle school level. No adjustment is made for Primary schools.

### **Organization of the Report**

The Report includes a summary table of enrollment, capacity and utilization by each school level (Primary, Primary/Middle, Middle, Middle/High, High, Charter and Special Education) for each district as well as Citywide. The summary table is provided in both the School Based and Building Based versions of the report. The Historical Report is no longer produced.

Beginning with the 2016-2017 Report, one minor change is made to the format of the Building Report: TCU enrollment is included in the enrollment of the school's main site.

## **RECAP OF PREVIOUS CHANGES (SCHOOL YEAR 2006-07 THROUGH 2008-09)**

During the 2006-07 through 2008-09 school years, the following modifications were made to the Enrollment, Capacity and Utilization Report:

1. Target methodology
  - a. The maximum capacity of classrooms is no longer affected by a school's Title 1 status in grades 4-8 and is uniformly set at 28 rather than the previous range of 28-31. This translates to an effective capacity of 21-25 for 4<sup>th</sup> and 5<sup>th</sup> grade classrooms (assumed programming efficiency between 75% and 90%) and 24.5 for grades 6-8 (assumed programming efficiency of 87.5%).
  - b. Maximum classroom capacity for grades 9-12 is decreased from 34 to 30.
  - c. Each elementary school receives a cluster room allocation regardless of the school's size. The number of allocated cluster rooms is based on the school enrollment.
  - d. Assumptions about the programming of instructional rooms for middle schools, secondary schools and high schools are updated to reflect:
    - i. Typical classrooms are expected to be in use seven out of eight periods a day.
    - ii. Specialty rooms – science labs, music classrooms, etc. – are expected to be in used five out of eight periods a day.
2. Capacity for rooms that are shared by multiple schools is distributed among the organizations according to the usage percentage provided by principals.
3. The PASS allows for the identification of CTT classes which have a maximum capacity of 25.
4. Each year, a report that organizes the information by City Council is published.
5. District 75 Special Education programs that either serve students in inclusionary classes only or include some students in inclusionary classes are identified with either a “#” or a “\*”.

We understand that the utilization rates of our schools and buildings garner much attention and that one statistic cannot capture the full picture of the space usage in a building. That being said, it is critical that we have a standardized means of assessing the use of our buildings so that we can evaluate our schools consistently. Our school facility portfolio is a limited resource, and it is our collective responsibility to ensure that school facilities are being utilized effectively and efficiently to best meet the needs of the nearly 1.1 million public school students. The changes we are making to our capacity calculation methodology allow us to more accurately reflect and report the instructional and programmatic use of classrooms and other spaces.

# **PART I. EXPLANATION OF CAPACITY FORMULAS**

INFORMATION PREPARED BY:  
NEW YORK CITY SCHOOL CONSTRUCTION AUTHORITY  
CAPITAL PLAN MANAGEMENT DEPARTMENT

## **A. FORMULA FOR PRIMARY SCHOOLS**

The Department of Education uses separate formulas to determine capacities for Primary School, Middle School, Primary/Middle School, Middle/High School, High School and Special Education programs.

**Primary School Calculations:**

**1. The Unadjusted Maximum Capacity**

Determine the number of rooms in each building presently in use or that could potentially be used for instruction (Pk-5, Non-D75 Special Education classroom, D75 Special Education classroom). Libraries, cafeterias, auditoriums, gymnasiums and rooms less than 240 square feet are excluded from all calculations.

Rooms between 240 and 499 square feet used for non-instructional purposes are not counted for capacity and are assumed to be available for support/administrative use.

Each school is entitled to up to eight rooms equal to or greater than 500 square feet for room functions including: General Office, Principal's office, guidance, medical/nurse, storage, coach's office, Pre-Kindergarten family room and a duplicating room. Such rooms are not counted toward capacity. Rooms in excess of those specified above (greater than or equal to 500 square feet) used by the school for administrative or non-teaching purposes will be counted as having capacity.

Assign a maximum target capacity to each instructional room in accordance with the chart below. If a room is used by an outside organization (not directly by the school), the room will be assigned a zero capacity.

**The maximum room capacities are:**

	<b><u>Target Method</u></b>
Pre-Kindergarten (Full-day)	18
Pre-Kindergarten (Half-day)	36 (18 A.M. & 18 P.M.)
Kindergarten	20
Grade 1, 2, 3	20
Other Grades	28
Special Education M.I.S. 1 thru 8 (Community School District)	12
Citywide Special Education	Based upon program
Specialty Instructional Spaces	28

**2. The Unadjusted Potential Capacity**

Assign a potential capacity to each room. This is done by dividing the total square footage of the room by 35 for Pre-K and Kindergarten classrooms and 20 for Grades 1-8 classrooms and Non-D75 Special Education classroom. These represent the minimum square footage required per pupil according to the building code of the City of New York.

**3. The Total Unadjusted Capacity**

Compare the maximum target and potential capacity for each room, and take the lower of the numbers. This is the target capacity of that individual room. The capacities of individual rooms are added to arrive at an unadjusted target school capacity. The unadjusted target capacity will change from year to year due to the shifting usage of each room.

**4. Adjustment for Cluster Support Services**

To calculate target capacities, the capacity of a specific number of cluster support rooms is subtracted from the unadjusted capacity and therefore not counted in capacity. The number subtracted is listed in the table below and varies depending on Title I status and/or the enrollment of the school based on the method. It is meant to reflect the need for support rooms (rooms used by cluster teachers beyond the homerooms) required for the teaching of art, music, science, computers, etc. These subjects are taught by specialized cluster teachers and often require separate specialized dedicated space.

<u>ENROLLMENT</u>	<u>NUMBER OF CLASSROOMS SUBTRACTED FROM CAPACITY</u>
1,251 and up	5
751 - 1,250	4
251 - 750	3
0 - 250	2

**5. Adjustment for Funded Support Services**

Federal and State funds are allocated to schools for pupil remediation. The number of students requiring remediation by school has been calculated by assuming a Citywide average of 35% of students reading below the State Reference Point as measured by the State reading test and multiplying that percentage by the enrollment of each organization.

One room is then assigned to funded programs for every 250 students requiring remediation. This is called the funded adjustment. The same funded room adjustment is used for both historical and target method.

<u>ENROLLMENT</u>	<u>FUNDED ROOMS TO BE DEDUCTED</u>
GE - 1,072	2
358 - 1,071	1
0 - 357	0

**6. Adjustment for Parent's and Teacher's Room**

Subtract capacity of a full-size classroom for use as parent's room and teacher's room.

**7. Adjustment for Guidance Room**

Subtract capacity of a full-size classroom for use as Guidance counseling room.

**8. The Adjusted Capacity**

When a school uses space in several buildings, the deduction is derived based on the total enrollment of this school and then applied to each building that it occupies by the enrollment percentage of the school at each location.

Adjusted target capacity is derived by subtracting a specific number of cluster support rooms, funded support rooms, one Guidance room and one Parent's/Teacher's room from the unadjusted target capacity.

**8. The Target Utilization:**

To determine the target utilization percentage for an organization, divide current enrollment by the adjusted target capacity for each organization in a building.

To determine the target utilization percentage for a building, aggregate enrollments and the adjusted target capacities for all organizations in a building and divide the aggregated enrollment by the aggregated adjusted target capacity.

## **B.FORMULA FOR MIDDLE SCHOOLS**

**Middle School Calculations:**

**1. The Unadjusted Maximum Capacity**

Determine the number of rooms in each building presently in use or that could potentially be used for instruction (6-8, Non-D75 Special Education classroom, D75 Special Education classroom). Libraries, cafeterias, auditoriums, and rooms less than 240 square feet are excluded from all calculations.

Rooms between 240 and 499 square feet used for non-instructional purposes are not counted for capacity and are assumed to be available for support/administrative use.

Each school is entitled to up to seven rooms equal to or greater than 500 square feet for room functions including: General Office, Principal's office, guidance, medical/nurse, storage, coach's office, and duplicating room. Such rooms are not counted as capacity. Rooms in excess of those specified above (greater than or equal to 500 square feet) used by the school for administrative or non-teaching purposes will be counted as having capacity.

Assign a maximum historical and target capacity to each instructional room in accordance with chart below. If a room is used by an outside organization (not directly by the school), the room will be assigned a zero capacity.

**The maximum room capacities are:**

Special Education (Non-D75) -----	12
Citywide Special Education (D75)-----	Based upon program designation
Gymnasium -----	56
Grades 6, 7, 8 Classrooms -----	28

**2. The Unadjusted Potential Capacity**

Assign a potential capacity to each room. This is done by dividing the total square footage of the room by 20. Twenty represents the minimum square footage required per pupil according to the building code of the City of New York.

**3. The Total Unadjusted Capacity**

Compare the maximum target and potential capacity for each room, and take the lower of the two numbers. This is the target capacity of that individual room. The capacities of individual rooms are added to arrive at an unadjusted target school capacity.

#### **4. Adjustment to Capacity**

The capacity calculations are based on the premise that the school day should be no more than 8 periods long and that not all classrooms can be used for every period, every day. Adjustments are made to the unadjusted capacity. When a school uses spaces in several buildings, the deduction is derived based on the total enrollment of this school and then applied to each building that it occupies by the enrollment percentage of the school at each location.

##### *Regular Classrooms*

It is assumed by the formula that with efficient programming, the regular classrooms can be used seven out of eight periods a day, that is, 87.5% of the time (program efficiency ratio). The one period that all regular classrooms cannot be programmed and used is the lunch period. Regular classrooms include 6<sup>th</sup> to 8<sup>th</sup> grade classrooms used for regular instruction.

##### *Specialty Instructional Spaces*

The U.F.T. contract stipulates that a teacher cannot teach more than five periods a day. Because of the configuration of these Specialty Instructional Spaces, it is difficult to use them for other subjects. As a result, the formula assumes that Specialty Instructional Spaces can be used no more than five periods a day, that is, 62.5% of the time (program efficiency ratio). Specialty Instructional Spaces include music room, art room, computer lab, science lab, weight room, dance studio and gym.

##### *Adjustments for Parent's and Teacher's Room*

Subtract 1/2 classroom for use as a parent's room and one classroom for use as a teacher's room.

##### *Adjustments for Guidance Counseling Room*

Subtract one classroom for use as a Guidance Counseling room.

#### **5. The Adjusted Capacity**

The adjusted target capacity is derived by deducting capacity of one full-size room for Teacher's room, 1/2 room for Parent's room and one full-size room for Guidance room from Regular Classroom capacity, and then applying programming efficiency ratio identified above, to capacities of regular and specialty instructional spaces respectively.

#### **6. The Utilization Rate**

To determine the target utilization percentage for a building, aggregate enrollments and the adjusted target capacities for all organizations in a building and divide the aggregated enrollment by the aggregated adjusted target capacity.

## **C.FORMULA FOR PRIMARY/MIDDLE SCHOOLS**

**Primary/Middle Schools Calculations:**

**1. The Unadjusted Maximum Capacity**

Determine the number of rooms in each building presently in use or that could potentially be used for instruction (Pk-5, Non-D75 Special Education classroom, D75 Special Education classroom). Libraries, cafeterias, auditoriums, gymnasiums and rooms less than 240 square feet are excluded from all calculations.

Rooms between 240 and 499 square feet used for non-instructional purposes are not counted for capacity and are assumed to be available for support/administrative use.

Each school is entitled to up to eight rooms equal to or greater than 500 square feet for room functions including: General Office, Principal's office, guidance, medical/nurse, storage, coach's office, Pre-Kindergarten family room and a duplicating room. Such rooms are not counted toward capacity. Rooms in excess of those specified above (greater than or equal to 500 square feet) used by the school for administrative or non-teaching purposes will be counted as having capacity.

Assign a maximum target capacity to each instructional room in accordance with the chart below. If a room is used by an outside organization (not directly by the school), the room will be assigned a zero capacity.

**The maximum room capacities are:**

	<b><u>Target Method</u></b>
Pre-Kindergarten (Full-day)	18
Pre-Kindergarten (Half-day)	36 (18 A.M. & 18 P.M.)
Kindergarten	20
Grade 1, 2, 3	20
Other Grades	28
Special Education M.I.S. 1 thru 8 (Community School District)	12
Citywide Special Education	Based upon program
Specialty Instructional Spaces	28

**2. The Unadjusted Potential Capacity**

Assign a potential capacity to each room. This is done by dividing the total square footage of the room by 35 for Pre-K and Kindergarten classrooms and 20 for Grades 1-8 classrooms and Non-D75 Special Education classroom. These represent the minimum square footage required per pupil according to the building code of the City of New York.

**3. The Total Unadjusted Capacity**

Compare the maximum target and potential capacity for each room, and take the lower of the numbers. This is the target capacity of that individual room. The capacities of individual rooms are added to arrive at an unadjusted target school capacity. The unadjusted target capacity will change from year to year due to the shifting usage of classrooms.

**4. Adjustment for Cluster Support Services**

To calculate target capacities, the capacity of a specific number of cluster support rooms is subtracted from the unadjusted capacity and therefore not counted in capacity. The number subtracted is listed in the table below and varies depending on Title I status and/or the enrollment of the school based on the method. It is meant to reflect the need for support rooms (rooms used by cluster teachers beyond the homerooms) required for the teaching of art, music, science, computers, etc. These subjects are taught by specialized cluster teachers and often require separate specialized dedicated space.

<u>ENROLLMENT</u>	<u>NUMBER OF CLASSROOMS SUBTRACTED FROM CAPACITY</u>
1,251 and up	5
751 - 1,250	4
251 - 750	3
0 - 250	2

**5. Adjustment for Funded Support Services**

Federal and State funds are allocated to schools for pupil remediation. The number of students requiring remediation by school has been calculated by assuming a Citywide average of 35% of students reading below the State Reference Point as measured by the State reading test and multiplying that percentage by the enrollment of each organization.

One room is then assigned to funded programs for every 250 students requiring remediation. This is called the funded adjustment. The same funded room adjustment is used for both historical and target method.

<u>ENROLLMENT</u>	<u>FUNDED ROOMS TO BE DEDUCTED</u>
GE - 1,072	2
358 - 1,071	1
0 - 357	0

6. **Adjustment for Parent's and Teacher's Room**

Subtract capacity of a full-size classroom for use as teacher's room and ½ room as parent's room.

7. **Adjustment for Guidance Room**

Subtract capacity of a full-size classroom for use as Guidance counseling room.

8. **The Adjusted Capacity**

When a school uses space in several buildings, the deduction is derived based on the total enrollment of this school and then applied to each building that it occupies by the enrollment percentage of the school at each location.

Adjusted target capacity is derived by subtracting a specific number of cluster support rooms, funded support rooms, one Guidance room, one Teacher's room and a half-size Parent's room from the unadjusted target capacity.

8. **The Target Utilization:**

To determine the target utilization percentage for an organization, divide current enrollment by the adjusted target capacity for each organization in a building.

To determine the target utilization percentage for a building, aggregate enrollments and the adjusted target capacities for all organizations in a building and divide the aggregated enrollment by the aggregated adjusted target capacity.

**D.FORMULA FOR HIGH SCHOOLS**

## High Schools Calculations:

### 1. The Unadjusted Maximum Capacity

Determine the number of rooms in each building presently in use for instruction (9-12, Non-D75 Special Education classroom, D75 Special Education classroom). Libraries, offices, cafeterias, auditoriums, gymnasiums, (not divided with floor to ceiling partitions), and less than 240 square feet rooms are excluded. Rooms used for non-instructional purposes are not counted for capacity and are assumed to be available for support/administrative use.

Assign a maximum capacity to each instructional room based upon either the grade (9-12) or program (special education - C.S.D. or Citywide special education) occupying the room and may change to reflect new DOE policy initiatives. If a room is used by an outside organization (not directly by the school), the room will be assigned a zero capacity.

#### The maximum room capacities are:

	<u>Target Room Capacity</u>
Regular Instructional Space (full-size)	30
Other Instructional Space (half-size)	15
Computer Lab	30
Special Education M.I.S. 1 thru 8 (Community School District)	15
Citywide Special Education	Based upon program
Gym	45
Shops	25
Science Demo Room	30
Science Lab	30
Dance Studio/Weight Room	30

Note: For Alternative High School Organizations and programs, the total number of full size rooms has been multiplied by 22 to determine the organization/program capacity except for Access GED and GED Plus programs whose capacity is calculated similarly to other regular high schools.

### 2. The Unadjusted Potential Capacity

Assign a potential capacity to each room. This is done by dividing the total square footage of the room by 20 for Grades 9-12 and Non-D75 Special Education. This represents the minimum square footage required per pupil according to the building code of the City of New York.

### **3. The Total Unadjusted Capacity**

Compare the maximum target and potential capacity for each room, and take the lower of the numbers. This is the target capacity of that individual room. The capacities of individual rooms are added to arrive at an unadjusted target school capacity.

### **4. The Adjusted Capacity**

#### Regular Classrooms

It is assumed by the formula that with efficient programming, the regular classrooms can be used seven out of eight periods a day. The one period that all regular classrooms cannot be programmed and used is the lunch period. Regular classrooms include Pre-K to 12<sup>th</sup> grade classrooms used for regular instruction.

#### Specialty Instructional Spaces

The U.F.T. contract stipulates that a teacher cannot teach more than five periods a day. Because of the configuration of these Specialty Instructional Spaces, it is difficult to use them for other subjects. As a result, the formula assumes that Specialty Instructional Spaces can be used no more than five periods a day. Specialty Instructional Spaces include music room, art room, computer lab, science lab, weight room, dance studio and gym.

The adjusted capacity is the sum of Regular Classrooms and Specialty Instructional Spaces after program efficiency ratios (87.5% for regular classrooms and 62.5% for specialty instructional spaces) are applied respectively.

### **8. The Utilization:**

To determine utilization percentage for an organization, divide current enrollment by the adjusted capacity for each organization.

To determine the utilization percentage for a building, aggregate enrollments and the adjusted capacities for all organizations in a building and divide the aggregated enrollment by the aggregated adjusted capacity.

## **E. FORMULA FOR MIDDLE/HIGH SCHOOLS**

## **Middle/High Schools Calculations:**

### **1. The Unadjusted Capacity**

Determine the number of rooms in each building presently in use or that could potentially be used for instruction. Libraries, offices, lunchrooms, auditoriums, gymnasiums and rooms less than 240 square feet are excluded from all calculations.

Determine a weighted average maximum room capacity using the maximum room capacity for Middle and High school grades as well as the enrollment percentage of Middle school grades and High school grades. Compare the weighted average maximum capacity with the potential capacity that is derived by dividing the total square footage of the room by 20. The lower of the two will be the capacity for that room. The unadjusted capacity is the sum of the room capacities.

### **2. The Adjusted Capacity**

#### *a) Regular Classrooms*

It is assumed by the formula that with efficient programming, the regular classrooms can be used seven out of eight periods a day. The one period that not all regular classrooms can be programmed and used is the lunch period. Regular classrooms include Pre-K to 12<sup>th</sup> grade classrooms used for regular instruction.

#### *b) Specialty Instructional Spaces*

The U.F.T. contract stipulates that a teacher cannot teach more than five periods a day. Because of the configuration of these Specialty Instructional Spaces, it is difficult to use them for other subjects. As a result, the formula assumes that Specialty Instructional Spaces can be used no more than five periods a day. Specialty Instructional Spaces include music room, art room, computer lab, science lab, weight room, dance studio and gym.

The adjusted capacity is the sum of Regular Classrooms and Specialty Instructional Spaces after program efficiency ratios are applied respectively.

### **3. The Utilization Rate**

To determine the utilization percentage for an organization, divide current enrollment by the adjusted capacity for each organization. To determine building utilization, aggregate enrollments and adjusted capacities for all organizations in a building and divide the aggregated enrollment by the aggregated adjusted capacity.

**F. FORMULA FOR SPECIAL EDUCATION SCHOOLS**

The Department of Education uses separate formulas to determine Citywide Special Education capacities and by comparison with actual school enrollments, the rate of utilization of Special Education school buildings.

A detailed explanation of the Special Education formula is provided in the material that follows:

**1. The Unadjusted Capacity of Special Education (District 75) Schools**

The following steps are to be taken to calculate the unadjusted capacity:

Determine the number of rooms that are over 240 square feet in each building which can potentially be used as classrooms or instructional support rooms. Administrative rooms, cafeterias, and auditorium are excluded

Using the register file provided by Citywide Special Education which makes available information on the number of classes for each program category, a capacity is assigned to each room based on the type of handicapping condition as indicated in the table below assuming that each room is not serving more students than the maximum classroom capacity allowed by the program category. Sum of the room capacity is the unadjusted capacity of the school.

<u>S.I.E. CATEGORY/DESIGNATION</u>	<u>MAXIMUM CLASSROOM CAPACITY</u>
D75 SPED PreK	8
D75 SPED 3R	12
D75 SPED 4R	8
D75 SPED 5R	6
D75 SPED 6R	12
D75 SPED SL	Various
D75 SPED WI	Various
<u>M.I.S. CATEGORY</u>	<u>MAXIMUM CLASSROOM CAPACITY</u>
Non-D75 SPED(Prek – 8 <sup>th</sup> Grade)	12
Non-D75 SPED(9 <sup>th</sup> – 12 <sup>th</sup> Grade)	15

**2. The Adjusted Capacity**

Citywide programs require significant amounts of space for instructional support services such as: speech, occupational and physical therapy, crisis intervention etc. Depending on the program category, there are different needs for various instructional support spaces.

The chart below summarizes the type of instructional support spaces that are needed for each type of program category.

<b><u>PROGRAM</u></b>	<b><u>SUPPORT SERVICES</u></b>
<b>PreK and 6R</b>	Unit Coordinator & Speech Nurse & Occupational Therapy/Physical Therapy Adaptive Physical Education Activities for Daily Living (with kitchen facility)
<b>3R and 4R</b>	Guidance & Hearing and Vision Teachers  Unit Coordinator - SBST Speech & Guidance Adaptive Physical Education Nurse & Occupational Therapy/Physical Therapy Activities for Daily Living (Adol. only) Crisis Intervention
<b>5R</b>	Unit Coordinator & SBST Speech & Guidance Adaptive Physical Education Activities for Daily Living

Depending on the number of classes held in each program category, determination is made based on the space allocation chart below on how much instructional spaces is needed to support the students. Deduct capacity of the instructional support rooms that are deemed necessary to support the programs from the total unadjusted capacity to get adjusted capacity.

<b><u>PROGRAM</u></b>	<b><u>2-6 CLASSES</u></b>	<b><u>7 CLASSES AND UP</u></b>
3R	1 room per class	0.8 room per class
4R	1 room per class	0.8 room per class
5R	0.75 room per class	0.5 room per class
6R	1 room per class	0.6 room per class
PreK	1 room per class	0.6 room per class

**A. The Utilization Rate:**

Total enrollment is divided by the adjusted capacity to get utilization rate.

**G. NOTES**

## **HIGH SCHOOL NOTES:**

- The information contained in the following footnotes is not reflected in the utilization profile.
- Where relevant, building capacity includes rooms that are used by GED programs during the school day.
- A zero capacity is indicated for District 75 inclusionary programs. The District 75 students integrated within general education classes. The main organization's capacity therefore reflects the inclusion of the District 75 students.

### **MANHATTAN**

- M457 – George Washington H.S. Young Adult Borough Center – enrollment of 213 students. Classes are held after 3:00 P.M.
- M473 – Washington Irving H.S. Young Adult Borough Center – enrollment of 243 students. Classes are held after 3:00 P.M.
- M575 – Manhattan Comprehensive Night and Day H.S. – daytime enrollment of 375 does NOT include 370 students attending evening classes. Total enrollment including both day and night is 745 students.
- M645 – School for Co-operative Technical Education - enrollment is counted on students' home registers.
- M973 – Restart Program – Total enrollment of 481 students. 322 students are housed in non-DOE facilities.

### **BRONX**

- X408 – Herbert H. Lehman YABC – enrollments of 298. Classes are held after 3:00 P.M.
- X417 – C Columbus HS YABC – enrollments of 210. Classes are held after 3:00 P.M.
- X428 - Learning to work YABC at Monroe Academy – enrollments of 193. Classes are held after 3:00 P.M.
- X456 – Alfred E. Smith Campus YABC – enrollments of 243. Classes are held after 3:00 P.M.
- X503 – Walton YABC – enrollments of 250 students. Classes are held after 3:00 P.M.
- X504 – Kennedy YABC – enrollments of 219. Classes are held after 3:00 P.M.
- X507 – Stevenson YABC – enrollments of 172. Classes are held after 3:00 P.M.
- X668 – Dewitt Clinton Campus YABC – enrollments of 147. Classes are held after 3:00 P.M.
- X695 – Horizons H.S. and Crossroads H.S. have 101 students at non-DOE sites. A total register of 254 students.

### **BROOKLYN**

- K411 – Abraham Lincoln YABC – enrollment of 249 students. Classes are held after 3:00 P.M.
- K431 – Thomas Jefferson YABC – enrollment of 241 students. Classes are held after 3:00 P. M.
- K467 – Erasmus YABC – enrollment of 249 students. Classes are held after 3:00 P. M.

- K501 – Franklin K. Lane Campus YABC – enrollment of 245 students. Classes are held after 3:00 P. M.
- K656 – Brooklyn HS of the Arts – capacity includes K656, the old Sarah J. Hale Annex.
- K657 – Downtown Brooklyn YABC – enrollment of 238 students. Classes are held after 3:00 P. M.
- K658 – Franklin Delano Roosevelt YABC - enrollment of 259 students. Classes are held after 3:00 P. M.
- K922 –South Shore Educational Complex YABC – enrollment of 219 students. Classes are held after 3:00 P. M
- K923 – Automotive High School YABC – enrollment of 252 students. Classes are held after 3:00 P. M
- K951 – Brooklyn Adult Learning Center - no DIIT enrollment. The Center is used for the purpose of educating adult students.
- K959 – Boys and Girls YABC – enrollment of 210 students. Classes are held after 3:00 P. M.

## **QUEENS**

- Enrollment, capacity, and utilization for Renaissance Charter H.S. (Q675) has been reported this year under Queens High Schools although its enrollment is not part of the audited register.
- Q457 - High School for Arts and Business Young Adult Borough Center - enrollment of 251 students. Classes are held after 3:00 P.M.
- Q467 - Flushing H.S. Young Adult Borough Center - enrollment of 300 students. Classes are held after 3:00 P.M.
- Q487 - John Adams H.S. Young Adult Borough Center - enrollment of 215 students. Classes are held after 3:00 P.M.
- Q950 – Pathways to Graduation – enrollment of 538 students at non-DOE facilities, trade classes, and evening centers citywide.
- Q344 - New Riker’s Island School - total enrollment 509 students.

## **STATEN ISLAND**

- R607 – Staten Island Young Adult Borough Center - enrollment of 234 students. Classes are held after 3:00 P.M.

**H. TERMS AND EXPLANATIONS**

## **TERMS AND EXPLANATIONS**

The following is an explanation of the column headings in the Utilization Profile report.  
(By building and by organization)

### **BORO -**

The Borough where the school is located.

M = Manhattan

X = Bronx

K = Brooklyn

Q = Queens

R = Staten Island

### **DIST. -**

The district having jurisdiction over the school.

### **BLDG. I.D. -**

A discrete four-character code for each building.

### **BLDG. NO. / NAME -**

The present name of the building.

### **BLDG. ENROLLMENT -**

Enrollment for the building. It is derived by summing the enrollment for the organizations housed in the building.

### **BLDG. CAPACITY -**

It is derived by multiplying each room in the building by the number of students it accommodates.

### **BLDG. UTIL. % -**

Percentage of capacity used. Building utilization is calculated by dividing building enrollment by building capacity.

### **ORG. I.D. -**

A discrete four-character code for each organization.

**ORG. NAME -**

The name or number of an organization.

**ORG. ENROLLMENT -**

Enrollment for each organization. Building enrollment is derived by adding the organization enrollments.

**ORG. CAPACITY -**

It is derived by multiplying each room used by the organization by the number of students it accommodates.

**ORG. UTIL. % -**

It is calculated by dividing org. enrollment by org. capacity.

A ZERO CAPACITY IS INDICATED FOR DISTRICT 75 INCLUSIONARY PROGRAMS. THE DISTRICT 75 STUDENTS ARE INTEGRATED WITHIN GENERAL EDUCATION CLASSES. THE MAIN ORGANIZATION'S CAPACITY THEREFORE REFLECTS THE INCLUSION OF THE DISTRICT 75 STUDENTS.
